

# HOMES 4 HOMES BUSINESS PLAN 2024

## We believe that a home changes everything.

Homes 4 Homes brings safe housing to people in developing countries. We empower local leaders & construction teams to build homes for “at risk” members of their own communities. Safe and secure housing positively impacts multiple generations of a family and allows them to raise their children in a better environment.

\$4,000 = 

An entire home can be funded for \$4,000.

# OUR APPROACH AND METHOD

We're committed to making a long term impact in each community we serve. Consistent support has greatly improved the health, safety, economics, and stability of families. Every community has existing water sources, strong community leadership, schools and access to medical care. By providing safe homes, we are meeting one of the most critical needs of these families.

## KEY HOME FEATURES

### Concrete Floor

Every home starts with a concrete floor, laying the foundation for a healthy and clean environment.

### Solid Roof Surface

A solid roof protects family members from weather elements and eliminates roof leaks.

### Strong Walls

Brick, concrete, or stucco walls built to stand the test of time and provide a legacy of shelter.

### Door & Window Locks

Locking doors and windows allow families to sleep and work in peace without fear.

### Latrines & Bathing

Latrines and bathing stalls spearhead sanitation initiatives to improve community health.

### Rain Water Systems

Rain-catch water systems are installed at the homesite if disability hinders travel to local well.

### Entrance Ramps

Entrance ramps are installed for elderly and families with disabilities to provide accessibility.

### Land Ownership

Local leaders confirm that each family owns the land their home is built on for sustainability.

# WE PROVE EVERY PROJECT

When you give funds to our mission, you will be able to see where your money is invested. First, to our sponsors who give a total home, we match funds and send you details of the family you helped provide a home with photos. To our general sponsors, we consistently share photos through our social media and email newsletters. And we operate on a 100% Giving Model, putting every dollar you donate directly toward projects.

**HOMES 4 HOMES**

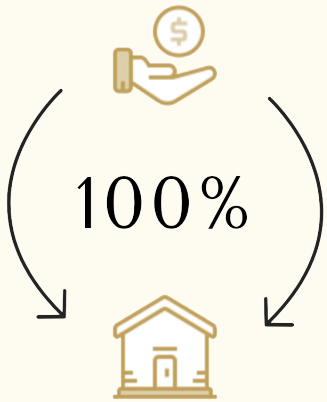

Homes 4 Homes is a non-profit organization that brings safe housing to people in developing countries. At Homes for Homes, we connect to a purpose bigger than ourselves. The Home is the foundation of a better life that positively impacts multiple generations of children in a better environment. By providing more than bricks and concrete...

**The Akumu Family**  
UGANDA

**COMPLETION REPORT**

Polline is a widow living in the village of Akecha. She lost her husband in 2018 due to an accident. She was left to raise her five children alone. She has survived and provided for her family by farming her land. Unfortunately, she is unable to earn very much income. Her grass hut is leaking and deteriorating, and she doesn't have the funds to build a stronger home. All these things are a lot to carry as a single woman. Polline's situation has now been changed forever because of you! You have given her a brand-new brick home and latrine. You have provided her to live in a safe and secure environment. Polline is so thankful for this gift you have given her. Thank you for having a tender heart to support the mission of Homes 4 Homes.

# GLOBAL IMPACT

Completed Homes  
Built Per Country

**GUATEMALA**  
137 HOMES

**Mexico**  
141 HOMES

**Uganda**  
618 HOMES

**HONDURAS**  
110 HOMES

To date, our generous donors have given nearly \$5 million which has allowed us to build 1,000 homes.

# 2024 CONSTRUCTION GOALS

## MEXICO

16 HOMES

\$64,000

## HONDURAS

50 HOMES

\$200,000

## GUATEMALA

24 HOMES

\$96,000

## UGANDA

185 HOMES

\$740,000

## TOTALS PROJECTED

275 HOMES

\$1,100,000

# COMMUNITY TRANSFORMATION

Community transformation is the ultimate goal of our projects, and it begins with the first home built and the first wages paid for construction. Our donors make a consistent, pronounced impact in four countries where we have strong local relationships. To date, over 6,000 people have been significantly impacted from the homes given. And this is just the beginning!

Any funding given in excess of these goals can be quickly invested in our Ugandan communities. These construction teams have the capacity to scale operations and complete more homes simultaneously in neighboring communities.

Additionally, 17 neighboring villages are waiting and ready for construction in Uganda, which represents nearly 1,000 homes. This would impact over 6,000 people.

Total village sponsorship begins at \$500,000 which includes total home construction for approximately 100 families, purchase of a construction truck, salaries for project manager and all construction workers.
